2020**

UPPER YARRA  
SECONDARY COLLEGE

[www.uysc.vic.edu.au](http://www.uysc.vic.edu.au)

Dear Parents/Guardians,

Upper Yarra Secondary College aims to provide students with an education that is inclusive, creative and challenging. One that recognises the significant role technology plays in the teaching and learning process.

Digital Learning is no longer something new. It is a fact of life. The world that we live and work in requires students to have a range of digital skills. These complement our strong focus on literacy and numeracy skills.

At school, students use a range of devices including Chromebooks, iPads, Windows-based notebooks and desktops and participate in the **Upper Yarra Secondary College BYOD Program**.

## Bring Your Own Device Program 2020

The BYOD Program connects UYSC students to the school network and gives them access to the education software catalogue.

Year 7 students are expected to purchase a recommended school device. Families have a few choices as to the device, accessories, duration of insurance, and payment method. These are available through JBHiFi BYOD Online.

**JB**  
**HI-FI**  
**SOLUTIONS**  
FOR EDUCATION

The JBHiFi BYOD portal provides parents with access to specific devices approved to work within UYSC's ICT infrastructure. This portal gives Parents access to:

- Education specific products, not available in retail stores
- Products carefully selected and approved for use by our school
- Education specific online pricing
- An extensive range of warranties
- Credit Card, BPay and finance options.

**Code: UPPERYSC2019 (After September 2019, Code: UPPERYSC2020) for November delivery.**

Chromebooks range in price from \$480 to \$660. However, the cost to families varies depending on the device selected, accessories selected, type of warranty/insurance selected, and type of financing selected (if required).

## Bring Your Own Device Requirements 2020

All students in Year 7 are expected to bring their own computing device to school every day. These devices are used in class and at home to support their learning.

The BYOD initiative is not intended to place an unreasonable burden on family finances. If you have a device at home, which you think suitable in the classroom, this is fine, provided it meets the required specifications listed below.

**For further advice please do not hesitate to contact:**

**Mark Snell IT Technician, Peter Gardiner ICT Coordinator 5967 1877.**

	CHROMEBOOK <i>(School preferred Device)</i>	WINDOWS	MAC	TABLET with Keyboard
 <b>Operating System</b>	ChromeOS	Win 10	10.12+	Android 5+ iOS10+
 <b>Screen</b>	11.6"	11.6"	11.6"	7"+ 9.6" Recommended
 <b>Storage</b>	32GB	128GB	128GB	16GB
 <b>Weight</b>	Under 1.6kg	Under 1.6kg	Under 1.6kg	Under 1.6kg
 <b>Security</b>	Not Required	Yes	Recommended	Not Required
 <b>Battery</b>	More than 6 hours			
 <b>Wireless</b>	2.5GHz/5GH			
 <b>Cover/Case</b>	The device should have a protective case/cover.			
 <b>Protection</b>	Accidental damage insurance is strongly recommended.			

# Acceptable Use

## The Responsibility and Expectations of Digital Citizenship

The College places a high value on the development and maintenance of positive, healthy and respectful relationships in a supportive environment for all members of the school community. This great opportunity for our students is accompanied with clear expectations about the responsible use and care of personal mobile devices.

It is the expectation that students are responsible digital citizens when participating in the BYOD Program and using the College's ICT infrastructure.

Students will practise responsible use of ICT and develop positive attitudes towards ICT that foster lifelong learning, personal growth, collaboration and productivity.

Students will be supported in developing digital citizenship through understanding the ethical, cultural and societal issues related to Information and Communication Technologies.

The College has a Digital Technologies Policy that includes clear guidelines for the responsible and appropriate use of ICT and is available to be viewed on our website [www.uysc.vic.edu.au](http://www.uysc.vic.edu.au) or on request from the College:

Students will accept responsibility for:

- Their personal actions when using ICT.
- The care and functionality of their device.

## Cybersafety

Upper Yarra Secondary College believes that teaching cybersafety and responsible online behaviour is essential and is best taught in a partnership between home and school.

To be safe online and to gain the greatest benefit from the opportunities provided through an online environment, students need to do the right thing by themselves and others.
