School Profile

Upper Yarra Secondary College is located at Yarra Junction in the Yarra Valley, 65 kms from Melbourne. The College provides students with a safe, healthy and supportive environment that nurtures self-esteem, leadership qualities, talent, curiosity and optimism for the future, providing them with a base to become responsible members of the College and the broader community.

Our staff is committed to focus on continuous improvements in curriculum provision and respond to research based trends in current and innovative teaching methods. We provide a range of curriculum choices including VCE, VET and VCAL that support pathways to a wide range of destinations including Universities, TAFE Colleges, apprenticeships and employment. This includes a strong partnership with Box Hill TAFE to deliver the Upper Yarra Secondary College established Viticulture course that utilises our own self established vineyard. The College also has implemented and embedded the Certificate III in Aviation into the curriculum, allowing students to gain their Remote Pilot Licence (Drones).

Students develop close relationships with staff via daily contact in our Year Level Team approach incorporating our Support Group Program. Student leadership and a strong student voice is promoted within a range of opportunities within the College.

A model of Inquiry Based Learning has been established in Year 7 and Year 8. FLIP (Future Learners Inquiry Program) has elements of an open plan learning environment, an integrated inquiry based approach to curriculum delivery and a significant literacy focus, personalising learning for students through engagement, acknowledgement of learning styles and preferences and student directed learning.

Professional Learning Communities (PLC's) and Learning Labs are led by staff at Upper Yarra Secondary College and are based on PIVOT and Attitudes to School Data. The Teaching and Learning Program also utilises HITS and has embedded Learning Intentions and Success Criteria into the Instructional Model of Gradual Release of Responsibility. We are constantly striving to improve the use of technology in the teaching and learning programs with an emphasis being placed on the use of iPads at Year 7 and 8.

School Vision, Values and Philosophy

Our Philosophy

Upper Yarra Secondary College aims to provide students with a safe, supportive and inclusive environment that nurtures self-esteem, leadership qualities, talent, curiosity and optimism for the future, providing them with a base to become responsible members of the college and the broader community.

Our Vision

To provide high quality education to the students of the Yarra Valley.

The college aims to encourage all young people to engage effectively with an increasingly complex world that will be characterised by advances in information and communication technology, population diversity and complex environmental and social challenges. It discourages negative forms of discrimination based on sex, language, culture, ethnicity, religion, disability, socio-economic background or geographic location. The college seeks to provide its students with the widest possible range of educational opportunities and to engender in its students a desire to achieve their

fullest potential, to overcome obstacles and to aim for academic excellence by living our values of Respect, Responsibility, Resilience and Excellence.

We hope to improve student connectedness and engagement with the UYSC community.

Our Values:

Respect, Responsibility, Resilience and Excellence

UYSC strives to maximise the educational opportunities for all students so they can reach their personal best. We aim, in collaboration with parents, to teach and reinforce behaviours which enable students to become respectful, responsible, valued and adaptable members of the local, broader and global community. Our staff will continue their own professional learning in order to improve the curriculum and their methods of teaching for the benefit of all students.

Our purpose is to:

- Challenge students with an engaging curriculum which builds numeracy, literacy and general knowledge as well as providing the skills needed for the safe and discerning use of information and communication technology.
- Provide a wide range of extra-curricular activities.
- Provide a safe and caring environment with appropriate support for student wellbeing.
- Encourage students to value their education as a foundation for their future study, employment and lifelong learning.
- Work collaboratively with students and families to set and achieve ambitious goals.
- Provide information and direction for students as they make decisions affecting their career pathways.
- Provide positive role models and opportunities for students in the areas of leadership, collaborative decision making, academic achievement and ecologically sustainable practices.

We Value:

- **Excellence:** Students are encouraged to step outside their comfort zone and to bring their personal best in all that they do. Students are not afraid to be great and take pride in their achievements and the achievements of others.
- **Responsibility:** Students make positive choices and come to school ready and willing to learn. They own their mistakes and learn all they can every day.
- **Respect:** The College encourages students to take care of the feelings and property of others, have a high regard for themselves and take pride in the school uniform and environment.
- **Resilience:** Students accept they have both strengths and weaknesses. They can set goals for themselves and never give up achieving these goals. The College continues working with peers, parents and the wider community for the benefit of all.
- **Learning:** Learning which supports students' social and academic success now and into the future.

Our Statement of Values is included at **Appendix 3 and available on our website.**

Engagement Strategies

To realise our vision, Upper Yarra Secondary College has in place a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in the school. We recognise that some students, as a group or as individuals may need extra social, emotional or

educational support to flourish at school, and so we will put in place strategies to identify these students and provide them with the support they need.

The School works collaboratively with students and parents/carers to establish fair and respectful behaviour policies and practices, based on the school's values, expected social competencies and positive peer relationships. There are also intervention strategies in place to address inappropriate behaviours which can negatively impact on the learning environment of the self and others.
